E-Commerce

If you sell your products using online auctions, classified services or your own Web Site iShip.com can offer you a way to not only show your Buyers what they will pay for shipping, but also automate the entire post-sale process

We will help you notify the Buyer of the total sale price - including shipping, getting the Buyer's shipping selections, getting the shipping address and even collecting credit card information for you to process. We can also let you add your business's handling charges without having to calculate percentages or subtotals. We do the work for you.

To setup your Selling Preferences you will need to do only three easy steps:

1. Select the services you will use to ship your products. The Buyers will see only the services you select.
2. Select how your shipping charges are displayed. Is your shipping included in the sale? Do you charge for handling? We will make sure the price is right.
3. Select what kinds of payment you accept. We will find out how the Buyer is going to pay. We will even collect credit card information for you to process.

You can set these preferences up now or later, but if you would like to do it now, press Continue. Otherwise, press Finish to complete registration.

End of Day

Print a driver record for packages shipped.

UPS requires its customers using computer based shipping systems to perform "End-of-Day" at least once each day a package is shipped. This will produce a driver record and send an electronic record of your packages to UPS, ensuring proper billing. This is only required, however, if you are using your own UPS account. You should perform End and print your driver record before the driver arrives.

You have shipped XX packages since your last driver pickup.

To print a driver record, press **Perform End**.

Perform End

Reprint

Reprint a driver record from a previous End-of-Day.

Find Driver Record

Occasionally you might need to reprint a driver record if the original was lost, damaged or was otherwise unreadable by the driver. To reprint a driver record from a previous date click Find Driver Record below. You will be shown a list of previous records in the order they were created, the most recent at the top of the list.
